

January 18, 2018

Dear Valued Customer,

At REXtac, LLC, we focus on providing quality products, services and solutions to support your success. To enable both of our businesses to differentiate ourselves in the market, we strive to collaborate and innovate with you.

Several supply disruptions in the production of polymer grade propylene, the primary raw material for our APAO products, have resulted in a forecasted January price increase of approximately \$0.20/lb, or 40%. We are therefore increasing prices \$0.15/lb. for orders shipped on or after February 1, 2018.

We do not take this action lightly but find it necessary given the significant cost increase of polymer grade propylene.

As always, thank you for your business. If you have any questions on this or any related matter please contact me.

Regards,

Bill Turner

Director, Sales and Marketing
